

## COUNTRYSIDE POLICY

Simply The Best Training Consultancy Ltd operates from offices and premises at Caerlan Farm, which is a working sheep farm.

This is quite a unique situation and partnership, and as such certain guidelines have to be followed:

1. Farm machinery must not be operated or used without our express permission.
2. When travelling into or out of the farm to the training premises, please understand that animals have the right of way, and if any gates are closed they must be closed after you have travelled through them. Please check the latching before you proceed.
3. On several occasions, sheep will be in the farmyard, and vehicles may have to be left outside the top yard. Please ensure you keep suitable footwear with you for such a situation.
4. The dogs on the farm are all working dogs and must be treated with respect and not petted and fussed, as they are not domestic pets.
5. When livestock, horses or dogs are in sheds, they must not be moved, or let out, unless authorised to do so. They will be there for a management reason.
6. After coming into contact with all animals - please wash your hands. Please do not feed any animals, unless directed to do so.
7. In any future crisis (e.g. another outbreak of Foot & Mouth disease) rules and guidelines to safeguard the livestock and farm will be issued to all parties.
8. The farm is managed in an environmentally sensitive way. All habitats are to be treated with respect, acts such as picking of wild flowers or disturbing nesting birds will not be tolerated. We also operate a recycling policy.
